Skills

- **Languages**: C++, Python, C, JavaScript
- **Frameworks**: HTML and CSS
- **Tools/Platforms**: MySQL, MongoDB
- **Soft Skills**: Problem-Solving, Team Collaboration, Time Management, Adaptability

Projects

Agricultural Yield Prediction Using Machine Learning GITHUB Sep 2025 – Oct 2025

- Built a machine learning model to predict agricultural yield using soil and climatic
- Implemented data preprocessing and trained regression models (Random Forest, Linear Regression) for accurate yield forecasting
- Developed a complete Python-based pipeline with real-time prediction functionality to support data-driven farming decisions

Secure File Management System GITHUB Mar 2025 – May 2025

- Developed a Secure File Management System with AES encryption, SHA-256 authentication, and TOTP-based 2FA for enhanced data protection
- Implemented secure file operations including encrypted upload, retrieval, and deletion with role-based access control
- Integrated threat detection to block malicious file types and ensure safe, compliant file handling

Training

C++ Programming & Data Structures Training| (FIFTH FORCE) Jun 2025-July 2025

- Completed intensive training in C++ OOP concepts and Data Structures & Algorithms, including stacks, queues, linked lists, trees, graphs, and sorting/searching techniques
- Built mini-projects such as a Student Record Management System and Browser History Manager, applying real-world problem-solving and clean coding practices

Tech stacks used: C++, Standard Template Library, Object Oriented Programming, Algorithm Design

Certificates

- C++ Programming & Data Structures Training| (FIFTH FORCE)| CPP Jun2025-July2025
- Software Development Processes and Methodologies | COURSERA C Sep 2024-Oct 2025

Achievements

- **Solved 250+ Problems on LeetCode** Nov 2025
  Solved 250+ problems and among the top 25% of global coders
- **Secured 10th rank in the Hackathon: HACKOVERFLOW 5.0:** Feb 2025
  Participated and ranked 10th in the Hackathon organized by LPU
